Dural Country Club Fishing Club Report

Our members are having a break over Christmas. No new Christmas presents to try out, like new boats and fishing gear. Maybe next year.

We are looking forward to our next long weekend away to Harrington, up the coast. Last year there were serious bushfires in the area which played havoc with the fishing. The sensible thing to do was to take shelter in the Bowling Club with the ocean at the back door.

The town was saved by the R.F.S. along with three planes and two helicopters. They did very precise air water drops. Right up to the back fences of homes in the path of the fires.

Nikki Watson from Kenthurst runs The Discovery Caravan Park at Harrington . We bumped into each other over a cold drink at the Bowling Club. She loves it up there.

At our monthly meeting Bruce brought in some publications from the N.S.W. Fisheries regarding fish tagging.

Some Kingfish were caught and tagged three times. They travelled over 3,000 km from S.A. to North N.S.W. The information gives details of their migration never before known. Sharks have also been tagged and they surprised the experts on how far they travel. From S. A. to W.A. and return, thousands of kilometres.

Let's hope 2021 will open up our fishing spots and allow travel between states. The fishing is always great in the N.T. They have tagged some fish with a handsome prize if you hook one.

Kind Regards

George Truelove

President 2020-2021
